

# QuadPot

4 REMOVABLE POT SUCTION POLYP TRAP

FAST, EFFECTIVE AND RELIABLE – WITH SAFETY MESH

MEDIKAL PRODUCTS' **QuadPot** THE 4 POT SUCTION POLYP TRAP DESIGNED WITH INCREASED FUNCTIONALITY TO ENSURE FAST AND EFFECTIVE POLYP CAPTURE.

## KEY FEATURES AND BENEFITS

### CLEAR PLASTIC CONSTRUCTION WITH RAISED NUMBERS

Clear Plastic Construction with raised numbers to aid with pot identification in dim light

### QUICK AND EASILY REMOVED SPECIMEN POTS

Removable pots are quick to remove and fit easily into a specimen jar with no fuss or damage to the specimen

### EXTRA SAFE - GUARDED FLOW THROUGH PORTS

Never lose a specimen - even the flow through ports have mesh if you forget to rotate to a pot

### EASY ROTATION WITH VISUAL AND TACTILE FEEDBACK

Designed with gloved hands in mind

The trap rotates easily and the raised numbering plus tactile feedback of each pot ensures easy positioning

### CLEAR VIEW OF SPECIMEN

Clear, unimpeded view of the capture area makes capture acknowledgement a breeze

### FULLY ASSEMBLED AND READY TO USE

Each trap is individually wrapped in a quick-to-open bag and is fully assembled to allow for quick attachment

### POTS CLEARLY MARKED

Removable pots are labelled separately to minimise confusion of specimens

### SINGLE USE

Minimises the risk of cross contamination between patients

| ORDER NUMBER | DESCRIPTION        | UNIT OF MEASURE |
